

WELCOME TO CLARUS!

Thank you for choosing Clarus Eye Centre for your cataract evaluation. We look forward to meeting with you and are excited to help you restore your vision.

In preparation for your evaluation, please review your CATARACT SURGERY OPTIONS and complete the LIFESTYLE QUESTIONNAIRE. This will help you and your surgeon decide which lens implant will be best for you. This is an important decision since you will be looking through these lenses for the rest of your life. We want you to choose the implant that will compliment your lifestyle and what you love to do most. You may want to discuss your lens options with family or friends. Please remember to bring your completed "Lifestyle Questionnaire" to your appointment.

With today's advanced technology, we can offer our patients Premium Laser Cataract Surgery to reduce their dependence on glasses after cataract surgery. We are the only cataract surgeons in this area to utilize the Catalys® femtosecond laser, which allows for a more delicate and precise procedure. In addition to removing your cataract with precision, the laser will reshape your cornea to reduce your astigmatism with the ultimate goal of further enhancing your vision and decreasing your dependency on glasses.

Thank you again for choosing Clarus, we look forward to helping improve your vision. If you have any questions, please call our surgery counselor at 360-923-4338.

Sincerely,  
Your Cataract Surgeons

Gary N. Scholes, M.D.

Jay C. Rudd, M.D.

Stephen D. Reck, M.D.

Grant D. Aaker, M.D.
